

CBD Industry Concerns

Lack of transparent information	Unknown dangers in processing	Documentation issues	Lack of Quality Control	Unknown sourcing	Resellers confusing the market	Residual THC concerns	Distribution and order fulfillment
<p>All questions are answered not only from our distributor, but from the manufacturer themselves. Ask us anything!</p>	<p>We process our material with the Czech Academy of Sciences and are fully compliant with all safety and quality requirements.</p>	<p>We offer full documentation from EU licensed seed purchase to final processing. We have all the documentation that you require.</p>	<p>Our processes include internal quality controls backed by external testing and documentation.</p>	<p>Our materials are sourced directly from EU licensed farmers using GACP guidelines.</p>	<p>Working with us means working directly with a manufacturer. We are not simply moving product, we are here to help you build your business.</p>	<p>Many products sold do not meet State regulations for purity and THC levels. With us, you will know exactly what you are getting.</p>	<p>Our cooperation with CBD Global in Denver, CO ensures a steady supply and ample on-hand product for quick distribution.</p>

Products and Documentation

We provide base ingredients as well as custom finished formulations for clients wishing to expand their line of products.

- 99% Purified Cannabidiol (CBD)
- 23 extracted natural terpenes
- White-label products including tablets, tinctures, suppositories, lotions, creams, other cosmetics and vaporizers
- Tailored formulations and products for individual clients

Our documentation and certification provide the highest level of quality standards and transparency in the industry.
